2. TRADE CFDs ON JSE SHARES

The screenshot displays the Sanlam iTradeGo trading interface. At the top, there are navigation tabs for 'TRADING', 'NEWS & RESEARCH', and 'ACCOUNT', along with a search bar for instruments. The main area is divided into several sections:

- Watchlists:** A table titled 'CFDs Top 40' lists various JSE shares with their current prices and percentage changes. For example, Vodacom Group Ltd is at 15,400.0 (1.97% up), and AngloGold Ashanti Ltd is at 10,125,000 (1.04% up).
- Trade Ticket:** A central pop-up window for trading British American Tobacco Plc (BTI:xxjse). It shows a last traded price of 63,299.0, a today's change of -301.0 (-0.47%), and a low/high of 62,700.0 / 63,418.0. The ticket includes fields for 'Size' (174), 'Bid' (63,229.0), and 'Ask' (63,268.0). It also features 'SELL' and 'BUY' buttons, and a section for 'Add Take profit / Stop loss'.
- Overview:** A section for the selected instrument, British American Tobacco Plc, showing a net change of -301.0 (-0.47%), an open price of 63,300.0, and a low of 62,700.0. It includes a 'Show market depth' link and a time range selector (1D, 1W, 1M).
- Charts:** A line chart showing the price movement of British American Tobacco Plc over time, with a date of 23-May-2018 visible.
- Positions:** A table showing the user's current CFD positions, including British American Tobacco Plc with an open position and a value of 3,164,950.72.

At the bottom of the interface, there is a status bar showing account information: 'Cash available: 878,951.33', 'Account value: 863,248.95', 'Margin available: 227,113.95', 'Margin utilisation: 73.69%'.

- You can trade CFDs of JSE shares on our advanced iTradeGo trading platform.
- Traders trade CFDs for these reasons: lower costs (0.35% vs 0.5%) as well as gearing and short selling.
- While some competitors quote their own bids and offers on CFDs, with iTrade you trade the JSE spot price for a CFD, ensuring that you get the 'true' market price. This protects clients from misleading CFD quotes made by some trading platforms.
- Not only do we empower you to trade at the exact JSE price, but our fees are also listed separately, not in the spread, which means we're fully transparent.
- CFDs are not regulated by the JSE. You therefore run full capital risk with smaller CFD platforms if they go bankrupt. With us you can trust the Sanlam balance sheet.
- Our CFD platform is multi-device HTML5 so you can access it from any device: PC, laptop or mobile. No need to download an app. You can trade and view your portfolio and watch-lists.
- Set trailing stop-losses to protect your portfolio from sharp declines.
- If your margin falls below pre-determined levels, we will automatically close positions to maintain the margin.

5. iMANAGED – MANAGED PORTFOLIOS

NOT READY TO INVEST ON YOUR OWN?
LET SANLAM PRIVATE WEALTH INVEST FOR YOU.

30-Apr-18	Sanlam Private Wealth - Performance at 30 April 2018							Inception date
Portfolio (gross of fees)	Apr-2018	Year to date	12 months	2 years *	3 years *	5 years *	Since inception *	
iManaged general equity	6.11%	2.20%	13.85%	16.12%	11.03%	16.63%	17.45%	01-Aug-11
JSE All Share Total Return Index	5.40%	-0.90%	11.45%	7.92%	5.28%	11.75%	13.11%	01-Aug-11

- iManaged portfolios are individual share portfolios, not unit trusts. Individual shares are registered directly in the client's name, providing ownership and full JSE protection under the JSE Fidelity Fund.
- Distinct from the customised personalised portfolios offered by Sanlam Private Wealth (SPW) to clients investing more than R1m, the iManaged portfolios are not individually tailored, but are strictly managed according to model portfolio guidelines. Clients therefore benefit from access to the expertise, experience and excellent track record of the SPW investment team.
- The minimum investment is R200 000 and portfolio management fees are 1.5% per year, calculated monthly on the value of the portfolio. There is also a small custodian fee of R300 per year. Transaction costs are kept in line with iTrade's low fee structure (see our costs on the website).
- You may at any stage change your account status to self-manage the portfolio. There will be no cost to do this as the shares will already be in your BDA account with the JSE.
- Two iManaged portfolios are available:
 - General Equity Portfolio
 - Dividend Income Portfolio.

6. SOCIAL MEDIA

- Why is social media important? Most news breaks on social media first before it appears on the online news channels and only much later in print media. Journalists tweet live from media conferences before they write stories. It's important to follow us and reputable journalists to see the news first.
- Sanlam iTrade is the leader on social media in the online trading industry in SA, with more than 12 000 followers on Facebook, and 2 500 @SanlamiTrade and 4 500 @iSayiTrade followers on Twitter. The iSayiTrade blog provides excellent education and market analysis blogs. Sanlam iTrade is also active on LinkedIn, YouTube and Instagram. Click on the links below to follow.
